Lelah Tehmeh

Software Developer (Freelance)

Aston, Pennsylvania, United States

Summary

Hello! I am a senior honors political science major at Neumann University, with a minor in American Sign Language. Just a few months into the summer of my senior year, I was set on becoming a lawyer, then I was introduced to coding and fell in love. I am now learning how to code by myself and I'm ready to achieve greatness. Becoming a developer not only gives me the opportunity to create but to become a life long learner. As a developer, possibilities are endless and I'm ready to make the most of what it has to offer.

Thank you for taking the time to get to know me. If you relate to my story or feel connected in anyway, please reach out to me and say hi. I'd love to get to know you too!

Experience

Freelance

Software Developer

July 2023 - Present (6 months)

During this time I am teaching (myself) and training to become a Software Developer. I am learning languages through documentation, doing freelance work to develop my skills, and working on personal/collaborative projects with other developers.
